-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 4-7 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Applicant provided prior art (Ti amo).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2-3, 8-9, 10-17 and 19-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Applicant provided prior art (Ti amo).

Applicant provided prior art discloses a condom, substantially as claimed.

However, Applicant provided prior art further discloses that the present invention is old and well known over the last twenty years. It would have been obvious to one having ordinary skill in the art at the time that the invention was made that the viscosity of the first lubricating composition could be about 10,000 to 75,000 cps and the viscosity of the second lubricating composition could be about 500 to 20,000 cps or the viscosity of the first lubricating composition could be about 10,000 to 25,000 cps and the viscosity of the

Art Unit: 3764

second lubricating composition could be about 2,000 to 6000 cps in order to make the compositions of a certain viscosity. The first and second lubricating composition could be composed of the different percentages of w/w recited in claims 17 and 20. It is old and well known to place a condom between two foil sheets.

Note: The prior art cited by the applicant has not provided complete details of the prior art. Thus, the examiner is requesting that applicant provided any additional non-patent documents or patents that will assist the examiner in the prosecution of this case.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. No additional prior art was cited during this first office action.
